# Vancouver, B. C.

---

THE CITY OF VANCOUVER was incorporated in the year 1886 ; was ravaged by fire in the month of June, same year ; it has now a population of more than 30,000 souls ; is the terminus of the Canadian Pacific Railway ; and has more palatial bank buildings than any other place of its size on the Continent of America.

During the year 1899 the amount of capital invested in residences and other buildings, estimated on the most reliable authorities, was \$1,500,000, and at least \$500,000 more represented by buildings in course of construction and to be erected, exclusive of the Canadian Pacific Railway Depot, costing about \$150,000, also \$100,000 which is now being expended by the Canadian Pacific Railway Company on wharf improvements, filling in, etc.

Vancouver has three Hospitals, a Children's Home and Orphanage, Free Library and Reading Rooms, large and substantial Public School Buildings, also commodious Churches of all denominations.

Vancouver is headquarters for the mining, fishing and lumbering interests.

Vancouver has also one of the best harbors in the world.
